participated in the training course
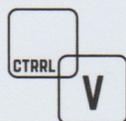

HAPPILY EVER AFTER

in Vác, Hungary

from 19/05/2024 to 27/05/2024

About the project

Fairytale therapy builds on the classical folk tales and legends, that every nation has. These tales were rites of passage, the wisdom that was passed down from generation to generation about how to handle different situations in life, how to live happily. In our project we introduce several methods to use tales as tools for personality development and self-knowledge. The participants get to be the heroes of their journey during the week, moving through different aspects of happiness in life.
